Bergerac's pleasing color palette and variety of shapes allow for countless unique applications to complement almost any plan.

Offering the same qualities as its larger counterpart, but on a slightly smaller scale, Bergerac is reminiscent of ancient Roman cobbled stone. Its intriguing multicolor blends and circle pavers expand your ability to create incredibly complex and unique designs. Your imagination is your only limit.
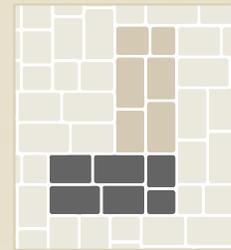

Belgard products are specially manufactured under the highest possible standards, meeting or exceeding ASTM-C936-01. Our elements are rigorously and comprehensively checked daily through a series of tests ranging from resistance to temperature extremes, the effects of de-icing salts, load-bearing capacity and more. When it comes to durability, Belgard pavers are designed and manufactured to withstand the elements and resist cracking.
