**Anchor** DIAMOND PRO™ RETAINING WALL SYSTEM

New Look,  
Legendary Strength.

**NEW**

Anchor Wall Systems just made the best engineered wall product even better. Now the Stone Cut™ Series of the Diamond Pro™ retaining wall system comes in multiple pieces, allowing you to create a more distressed-looking, random appearance. For nearly a decade, contractors, engineers and architects have turned to the Diamond Pro system for their critical wall needs.

With its proven performance and legendary strength, the Diamond Pro system is one of the most specified retaining wall systems in the industry. Now, the Diamond Pro Stone Cut Series offers the same reliability with the beautiful, weathered look of quarried stone in three different sizes. With the Diamond Pro Stone Cut Series, you can enhance the overall aesthetics of any engineered project – commercial, government or residential site-development. And, the Diamond Pro Stone Cut Series features the Anchor Wall Systems patented rear-lip system, ensuring uniform setback, easy installation and proven grid connections that have been hallmarks of the Diamond Pro series for years. Diamond Pro Stone Cut, quite possibly the perfect combination of brawn and beauty.

## Anchor DIAMOND PRO™ RETAINING WALL SYSTEM

The Diamond Pro™ retaining wall system meets the rigorous structural and economic demands required by commercial architects, engineers and contractors. Now the new Diamond Pro Stone Cut™ Series pleases the aesthetic wants of designers by creating the weathered look of quarried stone.

No pins. No mortar. No misalignments. Our patented rear-lip technology makes installation quick, efficient and accurate.

When creating walls with only one size of the Stone Cut™ Series of Diamond Pro™, we recommend using the 18-inch block for optimum strength and durability.
