4" h x 18" w x 10 1/2" d

COMPAC UNIT
8" h x 18" w x 12" d

STANDARD UNIT
8" h x 18" w x 18" d

CORNER UNIT*
8" h x 18" w x 9" d

FIBERGLASS PINS
1/2" diameter x 5 1/4" h

Keystone STONE | series units are made of high-strength, low absorption concrete for long lasting structures. All structural units are interconnected using high strength fiberglass pins for strong shear connection. The connecting pins allow for ease of unit alignment and a secure positive mechanical connection with soil reinforcement materials. Keystone's patented pin system provides the critical difference and the safety and security of a structural retaining wall solution!

STONE|series is an attractive option for the face texture on the entire Keystone family of products. This distinctive shaved stone appearance will enhance any landscape project and compliment the architectural elements of any site. As a gravity wall or reinforced earth structure, STONE|series products provide structurally sound, aesthetically appealing and economically beneficial solutions to your retaining wall projects.

Ideal for integrating landscape elements and site structures, STONE|series provides precise appearance, consistent quality, subtle textures, and defined shadows.
